Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Ashley.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Aquarius

One of the standout characteristics of those born under the Sun Sign of Aquarius is their unwillingness to follow the beaten track. With advancement and progress on their minds, there can be an irreverence to old and outdated ways of thinking and doing things. Many Aquarians aim to free themselves of personal and social conditioning. Although open to

change in theory, Aquarians can be surprisingly stubborn. Their idealism runs strong, but they can be very fixed in their opinions.

Often a bit aloof and even standoffish, Aquarians nonetheless are usually well-liked. They are curious and observant, and tolerant in a broad sense. Prejudice and bias are offensive to the typical Aquarius.

Aquarians are generally very clever, witty, and intellectual. They value progress and frankness. It's difficult to throw Aquarians for a loop--they're generally on top of things.

There is a bit of reformer in Aquarius. They'll try to get you to see through superficiality and encourage you to be open and forthright. "Be true to yourself" and "Don't follow the crowd" are mottos we easily associate with this sign. Aquarians need space and value personal freedom. Any attempt to box them in will likely fail. They'll happily return the favor and treat people from all walks of life as equals. Equality and fairness are hallmarks of the sign. If you're quirky and different, all the better.

Short description:

She is independent, autonomous, and has progressive ideas. An unusual, rebellious, and revolutionary spirit.

Weaknesses: Overly detached and impersonal.

Aquarius with ascendant Capricorn

Sun in II: The Sun is in the second house

You take pride in what you own, and you have a strong drive for security. Your staying power is tremendous, and you hate to let others down once you've made a promise. Avoid over-identifying with what you have. Concentrate on proving your worth through your strong value system and your incredible ability to stick with things and with people. Take pride in the solid and secure foundations that you build and the lasting relationships you aim to maintain, while being careful to avoid possessiveness.

You seek a safe and secure job and want to satisfy your needs, which are substantial. You could spend money impulsively.

Key points:

She has a real eye for value. A collector. She wants to feel needed and respected, and she is driven by a deep desire for security.

208 Conjunction between the Sun and Mercury

Because your ego and mind are usually on the same page, you possess abundant mental energy. You are always in a position to think about what you want, and in many ways, this is an interruption of the will. You are highly intelligent with a great drive to communicate with others. You invest a lot of pride in your intellectual capacities. You may not always listen as well as you speak, however, because you're too busy thinking about what to say next! But you are very curious, and although you enjoy expressing yourself, you usually don't dominate conversations completely.

Regarding studying or learning, you are better off reading the material than listening to a teacher. These traits come from a strong need to actively participate in communications. It is tough for you to listen passively and absorb information.

Your opinions are usually strong, and you are an independent thinker. You tend to be proud of your ideas and thoughts and might easily get a bruised ego if you are not "heard" or if your opinions are pushed aside, ignored, or criticized. You are expressive and possibly a very animated speaker. You are also very witty; others enjoy your playful and sometimes mischievous sense of humor.

Key traits: She is verbal, intelligent, observant, and sometimes nervous or wired.

-18 Square between the Sun and Pluto

You can be prone to inner tension and negative, self-destructive behavior. For example, when things are going well, you suffer from fears that something will come along to change that! Consider that constantly worrying that the rug will be pulled from under your feet could become a self-fulfilling prophecy.

You possess tremendous power and strength--when you learn to accept and use that strength instead of fear it, you can be one of the most effective, insightful, helpful, and healing people around!

At times, you can be intensely dissatisfied with your personal accomplishments and expressions of self. You put a lot of pressure on yourself regarding your own endeavors. You can be quite dissatisfied with your creative self-expressions, preferring to hide your expressions from others until you feel the output is perfectly "right." This is largely due to a perceived inability to reveal your true personality to others.

You struggle with a deep need to control yourself and life itself. You are especially sensitive to criticism and feel the need to "redo" yourself often. There is a marked fear of losing control, and this might stem from some traumatic event in childhood, or the childhood might have been crisis-ridden or emotionally-charged, in general.

As such, you can be intensely fearful of, or threatened by, change. This can express itself through attempts to control your life in such a way that you can manage your fears of being taken off guard, which generally backfires! You have an intense need for privacy at times.

Key traits: She is creative, ambitious, and endlessly going through transformations. She benefits from being open to improve, reform, and change, but needs to work on deep-seated shame, guilt, and fear that can be behind jealousies, resentment, and control issues. She has great determination and willpower and can readily turn around a situation.

33 Trine between the Sun and Midheaven

She knows what she wants on a professional level; is aware of her objectives and will do everything to achieve them; she'll usually carry out plans to the very end. She has a good job as well as a good reputation.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Leo

This is a warm, creative, and proud position of the Moon. Moon in Leo people want to create and entertain. They love deeply and largely. They can be rather lazy at times and a little bossy too. Generally, though, they have a deep need to treat others fairly and justly.

Lunar Leos require lots and lots of love and care in order to function well in the world. Depending on other positions in the chart, Moon in Leo people aren't always outgoing. When they feel comfortable, they do like being the center of attention. That is, they enjoy being in the "spotlight" in the comfort of their own homes and with family and friends. They love entertaining others and often take on the role of comic or story-teller.

Lunar Leos often feel a need to organize and even control their families and friends. They have an inner mission to set things right and generally like to oversee the goings-on in their circle.

When they feel slighted, these people can be dramatic in their emotional displays. When their pride has been hurt, they are given to big scenes and sulking. This rarely happens in public, however. Lunar Leos are far too concerned about their image to make splashy scenes outside the comfort of their own homes. In public, they prefer to take things in dignified ways. At home, however, big displays of emotional drama aren't uncommon. Wherever they are, they can secretly feel they are on stage.

These scenes generally only last a little while, however. Lunar Leos are often personally popular folk who are valued for their integrity and strong sense of justice. Generally, it is easy to reason with a Lunar Lion. Appealing to their well-developed sense of fairness usually works well.

Short description:

She is brave, knowing how to take risks and possessing the courage of her convictions, honest, imposing, and sharp. She has a great sense of, and respect for, justice. Expressive. Seeking adoration. Organizational sense. Selectivity with friends but is not overly influenced by them. Taste for splendor. A social leader.

Potential issues: changing and numerous affections. Emotionally demanding and proud. Brooding when attention is not forthcoming.

Moon in VII: The Moon is in the seventh house

Partnership is important for her, for better or for worse. She works well in business relationships, especially partnerships, and can be a great mediator, counselor, and harmonizer. She is balanced, the voice of reason, peace-loving, fair, and just.

You are drawn to partnerships and prefer to have a companion for emotional support. You are not a person who would happily take in a movie by yourself or dine alone, for example. A partner awakens feelings in you that you may have never known you had, and you seem to need a partner to learn about your own needs and feelings. Emotional fulfillment is sought through relationships, but if the Moon is challenged, you may have many relationships, one after another, each time believing that this is "the one." Taking time between relationships is hard for you but quite necessary, as you tend to jump into relationships out of fear of being alone. Or, you draw highly emotional people into your life as partners.

You are very adaptable to others' needs and usually quite likable. Be careful not to become overly dependent on a partner or assume that a partner will treat you the same way you do them.

You have a strong eye for balance and harmony and fine taste. You're a supportive, well-liked friend and partner.

-216 Opposition between the Moon and Saturn

When the Moon is in hard aspect to Saturn in the natal chart, natives need to learn to trust others more. Fear keeps them from fully enjoying personal relationships, and fear is behind the occasional rigidity that they express. When they let themselves receive nurture or care

from others, an inner voice cautions them that it might not be sincere, long-lasting, or enough! There can be some reluctance about becoming a parent, but once taken on, these people don't take their responsibility lightly.

Emotional reticence is the main theme of these aspects. Many people with this aspect had a lot of conditions placed on the love they received in early childhood. They tend to expect the same later in life. With hard Saturn aspects, individuals are often plagued with doubts, not only about the self but about what to expect from life itself. The problem is that expecting difficulties or negative situations creates an aura around them that perpetuates the problem. They must work hard at positive thinking and expecting more from life. Ironically, many people with hard Saturn aspects can be quite sarcastic, skeptical, and rigid in manner. This is essentially a defense mechanism designed to protect themselves from harshness in the world.

It is extremely likely that they feel neglected because they perceive it in the first place, and later expect it, to be the case. There's a vicious circle going on here that can only be broken when the patterns created by negative conditioning are broken. Adjusting one's perceptions and expectations is the key to breaking out of these negative patterns. Otherwise, natives of hard Moon-Saturn aspects will live life feeling left out--attracting circumstances that perpetuate a feeling of deep unhappiness and dissatisfaction.

Short description: She has changeable moods, a reserved character, can be stubborn and may lack assurance. Her relationship with a guardian may have been difficult or a challenging early family life in some cases.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Pisces

She sponges up the feelings and moods of people and the environment around her. Moody communication--sometimes very talkative, other times withdrawn. Tactful, preferring not to offend anyone. Fertile imagination. Flexible mind, sometimes gullible, but usually simply open to possibilities. Indirect. It can be very hard to pin her down to any one belief or decision.

Mercury in II: Mercury is in the second house

Intelligence geared toward ways to make money, become rich, or to be independent. All methods are good, sometimes she might be on the borderline of honesty.

You have a very practical mind and intelligence, seeing the obvious, most logical answer to any predicament often before others. You don't like to be put on the spot or pushed into talking or coming to a conclusion. Studies are similar--you need to work at your own steady

pace. You can be quite one-track minded at times, not very happy with multi-tasking, and often quite fixed in your opinions. Sensual stimuli is more relevant to you than abstract concepts.

55 Trine between Mercury - Midheaven

She likes to have her own ideas about things, to form an opinion and think over the problems it poses. She is an intellectual.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Capricorn

Venus in Capricorn people will try to win your heart by displaying self-control, presence of mind, and responsible behavior. These lovers want you to know they are goal-oriented, witty, savvy, and controlled. Nobody can get the best of them. They want you to see just how competent they are. They like some measure of predictability in their relationships as they are cautious in love.

Venus in Capricorn people project an aura of competency and their loner-like behavior can be attractive, in a cool way. They don't go gaa-gaa over love, or at least they don't express as much. Their lovers may complain that Venus in Capricorns are a little too practical and deliberate. Certainly, they can come across as lacking in warmth and spontaneity. Truth is, they can be rather romantic souls who yearn for a partner to share their lives with. Others' image of their relationship matters to them. They are conservative and willing to commit. Venus in Capricorn people are attracted to serious, goal-oriented lovers. They are a little shy in matters of the heart, but they don't want you to know it. If you like knowing where your relationship is headed, you'll be mighty pleased with Venus in Capricorn. These people plan ahead in love, and, unlike Venus in Pisces, they will let you know exactly where they (and the relationship) are headed. Pleasing Venus in Capricorn involves showing them you are practical and realistic. They want to impress you with the things they do. Appreciate their "saving for a rainy day" attitude, and be aware that they want to show you off in a quiet way.

Venus in I: Venus is in the first house

Big-hearted. She is generous, altruistic, devoted, warm-hearted, lovable, and sweet-tempered. She is drawn toward the Arts, music, song. She likes gatherings, parties. She may have big emotional highs. May crave and get a peaceful life in love.

You are a likable, magnetic, attractive, and charming person whose heart is often on your sleeve. Unless Venus is very challenged, you are easy to befriend, diplomatic, and warm in self-expression. You tend to attract others to you quite readily, and rarely come on too strong or aggressively. Negative expressions of this position include a superficial charm, a tendency

to "play dumb" when challenged or in doubt, and two-faced, passive-aggressive behavior. The need to be liked by others, and/or to keep the peace, might lead to feelings of resentment or general unrest if you feel that you give up your own power to others. You might find it difficult to make solid decisions. Your personal sense of style and manner are things that others find fascinating, and you generally pay great attention to how these things benefit you in life.

611 Conjunction between Venus - Mars

She is amorous, not a peaceful and calm lover but a passionate one with a strong temperament. She is demonstrative in love, and usually fully enjoys healthy pleasures and life to the full.

151 Conjunction between Venus - Lilith

This aspect suggests charm, beauty, attracting others by her magnetism. She is intense in love. Feelings are complicated. There can be brooding. However, she is inclined to embrace, accept, and understand the darker side of her nature.

-26 Square between Venus - Midheaven

She can have a difficult time integrating personal and public or professional lives effectively. Both areas may suffer at times due to indecision, inconstancy.

Mars

Mars represents the desire for action and physical energy.

Mars is in Capricorn

With fiery Mars in the more orderly sign of Capricorn, natives with this position have a subdued and controlled style of approaching life. Most don't come across as particularly enthusiastic; rather, theirs is a low-key but determined energy. Mars in Capricorn natives like to be on top of things. They are generally goal-oriented and focused people who are not afraid of hard work. Most are achievers by nature, and many possess well-defined ambitions--well-defined to themselves more than anything. They're not particularly flashy people, but their drive to succeed and to make their lives secure is strong, even if it's not right out there for the world to see. Anger is expressed in a rather cool, level-headed way with this position of Mars. Self-control is strong when it comes to expressing anger, drive, energy, and sexuality. Capricorn is a sign that detests waste of any kind. It also fears disorderliness and "letting go". With Mars in Capricorn, there is generally a powerful need to stay in control.

This is not to say that natives of this position are cold in any sense of the word. Their desires are strong, but they are often centered around the physical and material world--all that can be seen and held. With Mars in an Earth sign, sensuality is expressed in an earthy way.

However, unlike Mars in Taurus, for example, (another earth sign), Mars in Capricorn is not self-indulgent by nature. These people are usually quite disciplined. Capricorn possesses the ability to plan for the future--something that many other signs have difficulty doing. Mars in Capricorn natives are working toward realistic and attainable goals. They are productive people who get off when they see tangible results from their efforts. Many natives with this position are a little hard on themselves, and sometimes others. They usually can be relied upon because they have an innate sense of responsibility to both themselves and to those they care about. Most of them are very hard-working, and one of their strategies for anger management is to throw themselves even more energetically into their work!

Mars in I: Mars is in the first house

She gets carried away a lot. She is provocative, impulsive, dynamic, and bold. Great spirit of enterprise. She has a great need for activity and may throw herself into projects without thinking of the consequences or possible setbacks.

Her reactions to new situations are immediate and pressing. She is an active, energetic, dynamic, enterprising, and possibly even forceful or aggressive person. She tends to begin new endeavors with gusto, although follow-through is not necessarily indicated by this position alone. Some might be rash, inconsiderate, or overly assertive. She can be fiercely independent, and she is usually direct and straightforward. Spontaneity is extremely important to her. Some might stir up trouble, whether consciously or unconsciously, when she is bored.

199 Conjunction between Mars - Lilith

Love affairs are passionate. There is an instinctive understanding of intensity, the dark side of our natures, and passion.

-41 Square between Mars - Midheaven

She might suffer professional setbacks through actions that are too impulsive, imprudent, or lacking in forethought.

Jupiter

Jupiter represents expansion and grace.

Jupiter is in Virgo

She attracts the most good fortune when she is helpful, honest, orderly, and pays attention to details. The service industries, nutrition, and health are prosperous avenues. Practical and technical knowledge and skills are most valued. A real problem-solver and others appreciate her help. Doesn't always feel lucky or especially ambitious. Rather, hard work is valued.

Jupiter in VIII: Jupiter is in the eighth house

She is interested in the occult. Partnership can help financially, the spouse having money or resources. May easily gain support.

20 Trine between Jupiter - Uranus

She quickly sizes up a situation and knows what's going on at a glance. She thirsts after knowledge, and is a good organizer. She is very independent, her freedom of action is extremely important to her, is non-conformist. She is very agreeable company and is always in demand.

8 Trine between Jupiter - Neptune

She is very generous and altruistic, helping people in difficulty. She knows how to listen or, at least, how to give that impression to make others feel heard. She is a dreamer with imagination to spare, fully enjoying the Arts.

21 Trine between Jupiter - Ascendant

She likes meeting friends, enjoying a good meal and cordial atmospheres. She is pleasant, jovial, and engaging.

Saturn

Saturn represents contraction and effort.

Saturn is in Aquarius

Long-term studies and, if family circumstances do not allow this, she will teach herself. She is serious and methodical in work, perhaps liking to visit the elderly and intellectuals who enrich her mind.

Potential weaknesses: a sense of having bad luck and frequent disappointed hopes.

Saturn in I: Saturn is in the first house

She can be self-conscious in new situations, especially when young. Her manner is rather cautious and guarded. First reactions to new ideas or plans are reticent and somewhat negative, but these are only first reactions. Can be methodical, patient, a bit distrustful or initially reluctant, quite polite. She may speak little at first and does not waste energy unnecessarily. She has a good memory and strong sense of organization, preferring to do things well. She is never slapdash and has a strong sense of responsibility.

39 Conjunction between Saturn - Lilith

She can be hard-working and practical.

Uranus

Uranus represents individual liberty, egoistic liberty.

Uranus in Capricorn

Can have some problems accessing her intuition, since common sense often dominates. A great battler. She has so much power that one thinks nothing can defeat her. Her mission in society and in the world can mean everything to her. May question traditions and can be very open to redefining the meaning of success and to changing up traditional approaches to career and status.

Uranus in I: Uranus is in the first house

She is above all independent and original. Sometimes blunt and irritable. Never allows herself be influenced. She does not tolerate any sort of setback. She is ready for adventure, even if it's a bit risky.

Uranus in the first house alters the way an individual projects personal energies onto others. You are likely to seek, nay demand, freedom in the way you present yourself to the world. Dressing simply but quirkily, you will have no problems in asserting yourself. You are not shy in letting everyone know where you stand on issues. In fact you take pride in presenting your unique perspective. "I am a simple soul with few wants and needs," is what you tell yourself. All you can feel is an altruistic desire to change the world! Friends and relatives probably find you a trifle erratic. They know you to be good-hearted and genuine about your feelings. Your passions rise fast and you lose interest at the same rate.

168 Conjunction between Uranus - Neptune

She can be wildly creative with an odd but happy sense of humor and perspective. She is an idealist, easily disappointed by those using power plays to advance.

95 Conjunction between Uranus - Ascendant

She is always changing, somewhat unstable. She is ready to innovate, to change everything. She is inventive.

Neptune

Neptune represents transcendental liberty, non-egoistic liberty.

Neptune is in Capricorn

She is discerning, wise, and sensible.

Neptune in I: Neptune is in the first house

She is intuitive, sensitive. Not a fighter and can be indecisive. Usually projects an image of softness. May have some identity problems until she decides on a more spiritual or artistic path. May be psychic or simply strongly intuitive. Gentle and yielding. Changeable appearance or image, particularly if Neptune is close to the Ascendant.

51 Conjunction between Neptune - Ascendant

She can have unusual relationships. She is easily influenced, very sensitive and emotional.

Pluto

Pluto represents transformations, mutations, and elimination.

Pluto is in Scorpio

Fear of betrayal. Sensual and passionate.

Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

Lilith in Aquarius

She may have felt ashamed or uncomfortable for wanting to be part of a group, team, or community or for being one of the crowd. She can feel quite wary of people who seem to need these things. The answer is not to reject these basic needs since her behavior can be confused and extreme if these traits are denied.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

North Node in Capricorn

In the first half of life, she may hold onto her past, childhood, or the freedoms of life when there are fewer responsibilities. She is sensitive, loyal, and wonderfully warm and nurturing. However, happiness and satisfaction come from accepting and embracing responsibilities. Denying her need to excel in the outside world has a way of holding her back. Learning to be more self-sufficient improves her life many times over.

North Node in XII: North Node in the Twelfth House

Her path is to believe, take a leap of faith, let go of the need to control, and focus on emotional health not just physical. Qualities to develop: some healthy quiet and idleness, willingness to enjoy silence and inactivity from time to time, faith, belief in her intuition.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Aquarius with ascendant Capricorn

Ascendant is Capricorn

There's a seriousness to Capricorn rising people that is unmistakable. Even when they're joking around, it's of the deadpan variety. In fact, plenty of very humorous people have Capricorn Ascendants. It's all in the timing...and the fact that they don't giggle before the joke is over. Capricorn Ascendant people project competence. They simply ooze it. They're generally very image-conscious people--the clothes they wear and their manner are a big deal to them. They want to appear successful, and they generally succeed! Often the Ascendant persona is the one that was forced upon us by family conditioning. For example, parents may label their Libra Ascendant child the "nice" one; their Aries Ascendant child the "independent" one; and their Pisces Ascendant child is generally the space cadet of the family. We adopt these roles as familiar ones, and often carry them with us as our defense mechanisms, in some way or another, for the rest of our lives. In the case of Capricorn Ascendants, these were the children who were considered the responsible ones.

Sometimes, it was they themselves who looked around them and felt the need to be the structured, dependable, and responsible members of the family. So, often, Capricorn rising people adopted a strong sense of tradition, family, and responsibility at a very young age.

Capricorn rising people are generally big on family, and forever worry about security--for themselves and their dependents. They come across to others as hard-working, competent, and dependable people. What others may not see under that cool, even suave, exterior, is an inner struggle: they often ask themselves, "Am I doing enough?", "Do I deserve all of this?", "How can I make things better?" They worry a lot about the future. If success seemed to have come easy to these folks, it hasn't. They just made it look that way with a patient, hard-working, driven personality. Some Capricorn rising people practice some form of self-denial. They know how to do away with the frivolous. Still, they'll spend money on the clothes they really want (the ones with the right labels, that is), and other status symbols. Although they're rarely showy, their quiet air of success is often a result of conscious effort. More often than not, Capricorn rising individuals are success stories. Their childhoods may have been difficult, but they slowly but surely turn their lives around. Saturn rules this Ascendant, and

this generally means a kind of backwards way of living--as children, they are serious and bear a lot of responsibility; and as they grow up, they age beautifully, learning how to loosen up.
